Wills & Wont's

WILLS

...are things you **will** do. They align with your goals and should bring you closer to the life you want.

WONT'S

...are things you will **not** do. They could take away or distract you from what you want most.

Wills
bring
you
closer...

Won'ts
distract
you...

from what
you want

... and take you away from your goals.

**Use your

Won'ts → **distractions**

What should I
be doing to
bring me closer
to my goals?

What has
always brought
me joy without
sacrificing my
goals?

What do I want
to start doing to
make me into
the best version
of myself?

Wills

What are some things that I don't want out of life?

What things should I avoid to give myself the best chance of success?

What might take me farther away from my goals and who I want to be?

Won'ts

Boundary

The line *you* draw to protect
what's important to *you*.

The background features a long-exposure photograph of a starry night sky, with stars appearing as concentric circular trails. At the bottom of the image, there is a black silhouette of a mountain range. The word "TONIGHT" is centered in the middle of the image.

TONIGHT

The background features a long-exposure photograph of star trails in a dark night sky, creating a circular pattern of light streaks. The bottom edge of the image is cut off by a jagged, torn paper effect, revealing a solid black area below. Two horizontal bars, one green and one blue, are positioned in the center, each containing a word in white, bold, sans-serif capital letters.

A hand holding a glowing crystal ball against a starry background. The hand is positioned in the lower-left quadrant, with fingers wrapped around the base of the crystal ball. The crystal ball is a large, translucent sphere with a bright, golden-yellow glow emanating from its center, creating a lens flare effect. The background is a dark, deep blue or black space filled with numerous small, white stars of varying brightness, creating a starry night sky effect. The overall composition is centered, with the text overlaid on the upper half of the image.
